

**STIP** is one of the most sought after internship programs in the country because it offers a mix of serious mentorship and real work. It is also the most aggressive program in terms of the level of responsibility delegated to the individuals and the amount of ownership that they can take for everything that they do.

Three times a year, we open doors to students and fresh graduates to help give a kick-start to their professional careers and transform them into the professionals they aspire to be. From thousands of applications received each year, only a few hundred make it through.

The Program offers:

- **Skill development opportunities:** Skill development opportunities are presented in the form of formal and informal trainings as well as exposure to real life projects and assignments under the guidance of industry experts and mentors.
- **Networking opportunities:** The individual get to meet different people from the industry, from different socio-economic backgrounds, educational backgrounds, etc. The individuals build meaningful connections and learn a great deal.
- **An improved profile:** We help individuals with their CVs to look good and help them develop a personal portfolio to flaunt - with experience and training certificates

**Total duration of the program:** Eight weeks (Starts - June 17, 2019, Ends - August 09, 2019)

**Eligibility Criteria:** Students who have completed at least one year of their Bachelor's degree up to those who have completed their Bachelor's within the last year are preferred.

**Last Date to Apply:** May 30, 2019
